

Oil Design & Construction Co.

YOUR BELIEF Is Our Biggest Strength

Having been involved with the oil, gas and petrochemical industry as the top engineering contractor for three decades now, Oil Design & Construction Company (ODCC) has presented a full spectrum of project services ranging from feasibility studies to implementing key megaprojects. By offering technology-based engineering services coupled with the best purchase and manufacturing quality within the precisely-set timetable, ODCC tries to be the first choice of clients. By regularly gauging the satisfaction of customers and implementing plans to upgrade and improve services based on customer feedback, it strives to preserve its standing as a dynamic and distinguished company.

Oil Design & Construction Co.

No. 15, Erfan Alley, North Mirzaye Shirazi St., Motahari St., Tehran, Iran Postal Code: 15867 37814 / Tel: +98 21 8855 8223 / +98 21 8855 8232 www.odcc.ir / info@odcc.ir

Specialized Services

Oil & Gas Refineries By implementing numerous refining projects and collaborating with oil refineries and some gas refineries, ODCC has gained fame as one of the most experienced engineering contractors in oil and gas refinery development

Oil & Gas Fields Development Development of oil and gas fields

can help stabilize extraction of hydrocarbons that are vital for supplying global energy needs. By developing oil and gas fields for enhanced recovery from them in partnership with various clients, Chemical and Petrochemical Plants ODCC has successfully implemented numerous projects in the upstream sector.

The energy industry is directed towards converting crude oil to high-value petrochemical products. In line with the global trend of development of petrochemicals, ODCC is actively involved in studying, designing and developing petrochemical plants.

Oil and Gas Terminals, **Storage Tanks and Pipelines**

ODCC is involved in infrastructure projects for the transport and storage of oil, gas and their products for the purpose of fulfilling an effective role in the energy industry.

Desalination, Treatment of **Water and Wastewater**

In the midst of global warming and water shortage in the world, owing to its expertise in water and wastewater treatment, ODCC has a significant share in water supply and recycling.

Power Plants, Clean and Renewable Energy Facilities

ODCC is expanding its involvement with power plants and renewable energy facilities projects with a view to guaranteeing a future with sustainable energy as required by global policies for clean energy acquisition.

Certificates and Awards

Contractor Competency

Oil & Gas Sector

First Rank in Technical and **Engineering Services Group**

From Industrial Management Organization among 500 Top Iranian Companies

National Award for Top Projects for Implementing Imam Khomeini Refinery Development Project in Shazand

Specialized Consulting Services Competency Certificates

Upstream Surface Oil and Gas Facilities, Oil and Gas Pipelines, Oil and Gas Refineries, and Petrochemical Industries

Industrial Projects Competency Certificates

Through Design and Construction Method in the Oil & Gas Sector

Quality Management Systems for the Petroleum, Petrochemical

and Natural Gas Industry ISO 21502:2020 ISO 29001:2020

Project Management

ISO 9001:2015

ational Certificates Quality Management

System

Health Management System

ISO 14001:2015 IMS Certificates ISO 45001:2018

Experience

Over 30 Years of

Professional

Experience

Over \$450 mn

Hosting Over 11,000 sqm of Construction Facilities, **Heavy Machinery and Lifts**

Projects **Implementing Over** 40 Projects and Megaprojects

Personnel 2,500 **Strong Manpower Projects Worth** Over \$10 bn
